**2 Housing, Accommodation & Planning - see covering letter for background**

Vision: A parish in which affordable accommodation is available for young families, most building work is undertaken by local builders and planning decisions are made in accordance with the law

a	More social housing is needed in the Parish for young families and local workers					
b	Provision of sheltered housing/care home facilities in the Parish is needed					
c	If housing development is 100% 'affordable', some developments outside the settlement boundary would be acceptable in selected locations					
	Where further areas for housing development are required in the Parish, where should they be (recognising that there is minimal space inside the village settlement boundaries)?					
d	Sites inside the A3098 triangle in St Mawes & within the St Just Settlement Boundary					
e	Sites adjoining but outside the A3098 triangle					
f	Sites that adjoin the St Just settlement boundary					
g	Sites off the skyline, away from water views & away from the settlement boundaries					
h	The Parish should follow the example of St Ives by adopting a planning policy that any new open market house can only be occupied as a principal residence					
i	Comments.					
j	I might be willing to help take forward the results of this section in Phase 2 consultation & beyond Y/N					

**3 Shops & General Provisions**

Vision: A parish in which a range of retail outlets is encouraged and supported

a	More should be done to 'promote & retain' the shops we still have					
b	A 'local logo/sticker' for use in shop windows (and private homes?) is a good idea					
c	A local loyalty card would be a good idea					
d	A 'farmers' market' would be a good way of bringing more people (both residents and visitors) into the Parish					
e	I care enough about shops in St Mawes to alter my shopping habits to support them					

f Comments.

g I might be willing to help take forward the results of this section in Phase 2 consultation & beyond Y/N

#### 4 Transport & Highways

Vision: A parish in which green transport is promoted with joined up public transport systems (ferries, buses, bicycles and pedestrians) that ensure the provision and safe use of transport infrastructure by all

a	I support the new 20 mph limit (for the safety of pedestrians and other reasons)					
b	Bicycle usage (esp with electric and hire bikes) should be promoted					
c	A safety survey/audit (sleeping policemen, rumble strips, signage, etc) should be undertaken in the interests of both pedestrians and cyclists					
d	The dangerous nature of our roads (especially for cyclists and pedestrians) means that more warning signs are required - acknowledging the balance needed between information, safety, distraction and clutter					
e	A combination of buses, the Community minibus and the ferries meets the public transport needs of the Community.					
f	A shelter and bench are needed at the bus stop at the top of the road to St Just Church					
g	A full bus stop is needed on the west side of the road at Halwatha, St Mawes					
h	Residents at this address have/use a Mussel Card					
i	Comments.					
j	I might be willing to help take forward the results of this section in Phase 2 consultation & beyond Y/N					

#### 5 Physical & Social Well-Being and Lifelong Learning

Vision: A parish in which a wide range of physical, social and leisure activities enhances Well-Being

a	I would support the creation of a Well-Being strategy for the Parish (and all Roseland)					
b	Life-long learning activities available locally could make an important contribution to Social Well-Being					
c	A local mentoring programme supporting young people and those who seek guidance would be useful					
d	I have a skill, craft or expertise that I would consider offering as a course (or as mentoring) within a locally structured programme					
e	I would like to see courses available locally (if 'agree', please explain which topics in the comments box)					
f	I would be likely to come along to a 'taster day' that covered a broad range of courses					
g	Within the next five years, someone at this address is likely to need Social or Nursing Care (feel free to add more in the comments box below)					
h	Comments.					

i	I might be willing to help take forward the results of this section in Phase 2 consultation & beyond	Y/N
---	--	-----

## 6 Environment

Vision: A parish in which Environmental Action Plans deliver societal benefit

a	As the Parish Council has declared a Climate Emergency, it is imperative that the Parish Council takes action to address this emergency.					
b	I would support the principle of creating a local climate emergency response group					
c	We need to take more action at a local level to preserve our natural environment					
d	I would be interested in joining a community renewable energy project					
e	Comments.					
f	I might be willing to help take forward the results of this section in Phase 2 consultation & beyond					

## 7 Tourism

Vision: A parish in which visitors are enabled and welcomed as contributors to the Community's long- and short-term well-being, recognising that tourism needs to be kept in perspective and managed so that it does not develop to the detriment of the Community or the environment

a	Tourism is critical to the economic sustainability of the local community					
b	The economic prosperity of the community would benefit from increased tourism in 'shoulder months' (Apr-Jun & Sep/Oct) and 'winter season'(suggestions for 'how' invited)					
c	Facilities/activities available to both tourists and locals should be better promoted. (Eg the benefits of buying a Mussel Card)					
d	My income relies on tourism					
e	I would be willing to make my property available to visitors to attend Well-Being Courses including Creative Arts activities in the off-peak months of Sept - May					
f	Other than the pressure on house prices, please provide comments on what you see as the downsides for the Community of tourism					
g	Comments.					
h	I might be willing to help take forward the results of this section in Phase 2 consultation & beyond					

## 8 Employment

Vision: A parish in which local people can find employment and employers can find employees locally

a	The 2 greatest challenges for local employment are: (1) those who work locally cannot afford to live here; (2) those who do not live here have difficulty with travelling to work here. So more social housing needed to bring employment aged families into the community					
b	Comments - including suggestions to boost employment provision and/or opportunities					

c I might be willing to help take forward the results of this section in Phase 2 consultation & beyond Y/N

### 9 Very Small Enterprises/Sole Traders

Vision: A parish in which Very Small Enterprises & Sole Traders thrive

a	Their work needs to be promoted and people encouraged to use them rather than larger companies from out of the Parish/off Roseland						
b	Existing local advertising (eg Roseland Magazine and social media) provides sufficient promotion of local businesses						
	The Parish would benefit from the following forms of rentable accommodation:						
c	Bookable/rentable 'hot desk/workspace' venue with high-capacity internet coverage						
d	Private office space						
e	Small 'light industrial' units						
f	.... And I would make use of it						
g	I have one of the above suitable spaces that I might consider renting out						
h	Comments.						
i	I might be willing to help take forward the results of this section in Phase 2 consultation & beyond Y/N						

### 10 Information

Vision: A parish in which relevant information is readily accessible

a	Between them, the Roseland Visitor Centre, Notice Boards, the Roseland Magazine, the FalRiver Area Guide, the internet and Social Media address most information needs						
b	Other suggestions for informing people about what is happening are invited below						
c	Comments.						
d	I might be willing to help take forward the results of this section in Phase 2 consultation & beyond Y/N						

### 11 Closing Comments

a	What topics have we not addressed that we should have?						
b	What are the most important elements currently 'missing' from our Parish?						
c	Anything else we should consider looking ahead to Consultation Phase 2 and beyond?
